

GRADED SOLUTIONS:

1.

```
SELECT match_num, match_date
FROM matches
WHERE host_team_score < guest_team_score
```
2.

```
SELECT
    jersey_home_color,
    jersey_away_color
FROM
    teams
WHERE
    name = 'All Stars'
```
3.

```
SELECT
    player_id
FROM
    players
WHERE
    team_id = (
        SELECT team_id
        FROM teams
        WHERE name = 'Amigos'
    )
```
4.

```
SELECT
    roll_no,
    mobile_no
FROM
    students
WHERE
    department_code = 'CS'
    AND dob > '2001-06-15'
```
5.

```
SELECT faculty_lname
FROM faculty
JOIN departments
    ON faculty.department_code = departments.department_code
WHERE gender = 'F'
    AND departments.department_name = 'Mechanical Engineering'
```

PRACTICE SOLUTIONS:

1.

```
select m.name
from managers as m inner join teams as t
on m.team_id = t.team_id
where t.name = 'All Stars'
```
2.

```
select name from teams
```
3.

```
select title from book_catalogue natural join book_authors
where author_fname = 'Joh Paul' and author_lname = 'Mueller'
```
4.

```
select title from book_catalogue
where publisher = 'McGraw Hill Education'
```
5.

```
select student_fname, student_lname
from students inner join members
on students.roll_no = members.roll_no
where member_type = 'PG'
```
